## Prokopiou Marios

### PHP Developer

#### CAREER OBJECTIVE

Design and develop **Internet applications**

#### SKILLS

**Two years' experience** in design and development of online applications, and in custom Google maps application. I am proficient in the use of **Zend Framework 2** so it is easy for me to adapt fast in other PHP frameworks.

#### PROFESSIONAL EXPERIENCE

- November 2013 – present: **Lamda Card Services Ltd.**

Position: PHP developer, MySQL,

Responsible for the development of an eWallet application both Front-End and Bank-End. This application can also be sold as a white label. The project is divided into four modules. Front-End, Users, Admin, Super Admin. Users Module is holding the information for all the users that registered with the application to use it as their online eWallet of choice. Admin module is holding the information for all users of that white label and allows admins to manage the online application for support, reports etc. Super Admin module can do everything that an Admin module can do but also manage all the white labels and offer support to their administrators if needed. Two white labels of this project can be found at <https://www.pay-guard.com> and <https://www.arenawallet.com>. According to the companies needs I also contribute to other projects.

- Septembre 2012 – October 2013: **Art world Medical Ltd.**

Position: Webmaster, Graphic Designer, and Junior IT responsibilities

I was in charge of administrating the four following websites: [www.artworldmedical.com](http://www.artworldmedical.com), [www.neurooperations.com](http://www.neurooperations.com), [www.neoneophvtou.com](http://www.neoneophvtou.com), and [www.kkmedical.com](http://www.kkmedical.com). I was responsible for updating content according to company needs, identifying bugs and fixing them. Moreover, I was responsible to create new image content using Adobe Photoshop and Adobe Illustrator.

In March 2013, I was given the high responsibility of creating the marketing material for the International Medical Travel Exhibition (IMTEC) and designing the company prospectus and posters for NeuroOperations booth ([http://www.neurooperations.com/index.php?page=basic&category\\_id=207](http://www.neurooperations.com/index.php?page=basic&category_id=207)). Also, I was responsible for the company's computers (formatting, virus definitions etc.).

## EDUCATION

- 2011 - 2012: MSc Management (Merit) University of Leicester, UK
- MSc Project , Grade (2:1)

Title: Why go green? : Motivations that drive consumers buying fair-trade Green Coffee

This project aims to investigate if consumers are willing to pay more for protecting the environment or if they become price sensitive when it comes to eco-friendly products. In extend, this project's objectives will examine if people are doing more for the environment in everyday life e.g. recycling, to protect the environment. Additionally, discover whether people act eco-friendly because they believe that saving the environment is important or if they do it because most people adopt an eco-friendly behavior.

- 2008 – 2011 BSc Computer Science (2:1)
- BSc Project, Grade (First Class Honors(1))

Title: Web based Applications for birdwatchers with development of smart functional tools using Google Maps API  
This projects aim was to design and implement an XML driven database that allows a group of birdwatchers to input their bird observations in the club computer via an intelligent home page over the internet, using Google Maps technologies, PHP, JavaScript, and Ajax

## LANGUAGES

- Greek/English (spoken and written)

## COMPUTER LANGUAGES

- Web: PHP, HTML, CSS, JavaScript, jQuery, Ajax
- Operating systems: Windows, Linux
- Databases: SQL (MySQL)
- Software: Adobe Photoshop, Illustrator, Dreamweaver, NetBeans
- Frameworks: ZendFramework 2, Simple MVC Framework.

## HOBBIES

- Graphic design (creation of logos, and creation of visuals for T-shirts) , Building Computer Systems from scratch
- Development of <http://psavvaaluminium.com/> project.

## ORGANIZATINAL & TIME MANAGEMENT SKILLS

Good ability to adapt in multi-cultural environments, gained through my work experience and interactions with fellow students at the University. Working for my bachelor research helped me to develop both my verbal and written communication skills as well as my listening capabilities. Good ability to understand and convey complex information. Dedicated, hardworking, well organized, and disciplined. Additionally current work experience provided me with great presentation skills since I often have to present the project to different clients
